

Subject: Upcoming TreasureTrail Event

Body: One of your saved events is starting soon.

Open TreasureTrail for details.

[View Event]

ANTI-SPAM RULES

- Never send duplicate emails
- Respect user preferences
- Do not email users for actions they perform themselves
- Only send email notifications for important events
- Keep email content concise

GOAL

Provide useful notifications without overwhelming users and focus on the core TreasureTrail experience of discovering items, connecting buyers and sellers, and finding wanted items.

Log in to view and respond.

[Open TreasureTrail]

Do not include the message contents in the email.

WANTED ITEM MATCH EMAIL

Trigger when:

- Listing title matches wanted item keywords
- Listing description matches wanted item keywords
- Metadata matching identifies a likely wanted item match

Subject: Wanted Item Match Found

Body: A new listing may match one of your wanted items.

Review the match inside TreasureTrail.

[View Match]

WANTED POST RESPONSE EMAIL

Trigger when:

- Another user comments on or responds to a wanted post

Subject: Response to Your Wanted Post

Body: Someone has responded to your wanted post.

Open TreasureTrail to view the response.

[View Response]

EVENT REMINDER EMAIL

Allow reminder timing options:

☐ 24 hours before event

☐ 1 hour before event

☐ 15 minutes before event

9. Wanted Post Responses

10. Another user responds to a wanted post

11. Go Live Notifications

12. Event host or seller starts a live session

NOTIFICATION SETTINGS PAGE

Create simple user controls:

IN-APP NOTIFICATIONS

☐ Follow Notifications

☐ Private Messages

☐ Event Reminders

☐ Wanted Item Matches

☐ Wanted Post Responses

☐ Go Live Notifications

EMAIL NOTIFICATIONS

Allow users to individually enable or disable:

☐ Email me when I receive a new private message

☐ Email me when a wanted item match is found

☐ Email me when someone responds to my wanted post

☐ Email me before a saved event begins

EMAIL RULES

Private Message Email

Subject: New Message on TreasureTrail

Body: You have received a new private message on TreasureTrail.

GOAL

Simplify TreasureTrail notifications and focus only on notifications that provide meaningful value to users.

REMOVE COMPLETELY

Delete all notification types, triggers, settings, UI references, and database references related to:

- scout_request
- scout_application
- scout_response
- reputation_milestone
- listing_shared
- marketplace_match
- rare_radar_match

Remove associated:

- notification templates
- icons
- preferences
- notification generators
- database triggers

KEEP IN-APP NOTIFICATIONS

Support only:

1. Follow Notifications
2. User follows another user
3. Message Notifications
4. User receives a private message
5. Event Reminders
6. Upcoming saved event reminders
7. Wanted Item Matches
8. Listing or metadata matches a user's wanted item
